WHAT IS THE NORTHWEST MARICOPA REGIONAL PARTNERSHIP COUNCIL PREVENTION AND EDUCATION GRANT PROGRAM?

The Northwest Maricopa Regional Partnership Council has identified the need for prevention and education programs that focus on improving health outcomes for children birth through age five. For families and their children, good health, beginning with a healthy birth, is an essential element integrally related to mental and physical development, learning, social adjustment and safety. Healthy children are ready to engage in the developmental tasks of early childhood and to achieve the physical, mental, intellectual, social, and emotional well-being necessary for them to succeed when they reach school age. The health development of children results from parental access to information and education, preventive care, disease self management and control. Examples of allowable Prevention and Education Programs are the obesity and unintentional injury prevention, as well as oral health and asthma control programs.

WHAT IS THE TOTAL AMOUNT OF FUNDING AVAILABLE?

Approximately \$760,000 is available in this Request for Grant Application. Contract renewal will be contingent upon satisfactory contract performance, evaluation and availability of funds.

The anticipated contract period for any resultant grant will be September 1, 2009 to June 30, 2010.
